

Little Language Lab

2025 Pediatric Speech Summer Camp

Led by a speech language pathologist, Little Language Lab is an intensive group that focuses on expanding children's use of total communication, including spoken words and phrases, Augmentative and Alternative Communication (AAC), signs, and gestures.

Improving language skills is facilitated through verbal modeling of new language and aided language stimulation during book reading and collaborative play.

Children will practice communication skills to make comments, request help, and engage with peers.

July 7–17

Monday–Thursday (8 total sessions)

9:15–10:45 am

355 East Erie Street, Floor 18

Ages 4–8

To sign up, email pedscamps@sralab.org, including the camp name in the subject line, or call 312.238.1139.
