

Teenage Conversation Club

2025 Pediatric Speech Summer Camp

Shirley Ryan
Abilitylab

Led by a speech language pathologist, Teenage Conversation Club is an intensive therapy group that focuses on improving receptive, expressive, and social language skills in the context of peer and group interactions.

Improving language skills is facilitated through functional conversations, video watching, and collaborative games and problem solving.

Teens will practice expressive, receptive, and social language skills to navigate group activities, solve problems, initiate and maintain conversation with peers, and repair communication breakdowns.

June 16– July 17

Monday & Thursdays
(8 total sessions)

1:15–2:45 pm

355 East Erie Street, Floor 18
